Please allow Uber to operate in SC. I've used them many times all over the U.S. and think they are VERY useful. I live in North Myrtle Beach and a cab ride to MYR is \$75.00 where Uber charges 45 to 55 dollars. Thank you and please reconsider your decision not to stop them from operating, Matt Naylor

Uber is the safest paid for ride I've ever taken. The drivers are safe and nice, the cars are clean.

They save people from getting dui's or wrecking and killing people, everyday.

We need Uber Back!

I have used Uber in several cities across the country and find the service far superior and the cost lower than taxis.

I have even used Uber in Greenville when my car was being repaired.

Uber is a service the citizens of and the visitors to South Carolina need. It uses technology to make transportation more efficient and reliable.

Please find a way to allow Uber to operate in South Carolina.

Thank you.

Subject: Uber ride sharing service

I can not begin to tell you how infuriating it is to hear of the recent decision to send Uber a cease and desist order over its ride sharing services. Uber has provided me with countless affordable and safe rides home. The traditional cab service has become so unwelcoming it often prompted for dangerous decision to be made about drinking and driving; Uber filled that void by providing a customer service that I have never gotten in a cab. Speaking as a representative of my generation, this was the wrong decision and you are going to cause a lot of dangerous decision to be made because of it.
